## Campsites & Facilities

The campsites are primitive. RVs or pop-up campers are not allowed this year but may be allowed in the coming years. There will be access to electricity, water, full inside bathrooms and showers. This should make it easy & fun for our daughters & granddaughters. In the event of severe weather during the camp-out, there is a very large barn and a fully furnished house on-site that we can use to ensure everyone's safety.
